

Fleet Management App

The Argus Fleet Management app is a quick and easy way to manage your assets while out and about. Never be out of touch – it works everywhere you work.

Effective fleet management on the move

Features

- **Dashboard** – Quickly and easily view your fleet on the dashboard map.
- **My Assets** – View the status of each asset, with the ability to click through to map view.
- **Reports** – Run Stop, Trip, and Overspeed reports to get information where and when you need it.
- **Notifications** – Set and receive real-time, on-screen notifications.
- **Settings** – Customise the app to suit your preferences.
- **Mobile Platform** – Works on Android and iOS.

Benefits

- Quick and easy to use.
- Stay logged in and in touch with your fleet.
- Keep your assets safe, compliant, & maintained – removing the need for paperwork.
- Mitigate your Health & Safety risk.
- Solve issues as they arise in real-time.
