

LOCI Asset Tracking Plan

Managing unpowered assets has never been easier. Know where your valuable assets are, how they are used, and when they need maintenance.

Locate and manage anything, even unpowered assets.

Features

- **Asset Tracking** Real-time tracking of assets.
- **Web & App-Based Platform** Manage assets from any device with internet access.
- **Group and Define Any Asset** Organise and categorise assets.
- **Replay / View History** Review asset movement history.
- **Map Layers** Enhanced visualisation of asset locations.
- **Geofencing (Basic)** Alerts when assets enter or leave designated areas.
- **Notifications** App and email alerts for asset activities.
- **Online Hardware Management** Manage tracking devices online.
- **Fleet Management** Tools to manage fleet operations.
- **Asset Register** Detailed and up-to-date asset register.
- **In-depth Asset Profile** Profiles with usage and maintenance history.
- **Check Sheet App** Complete check sheets efficiently using a dedicated app.
- **Check Sheet Manager** Create and review custom check sheets for thorough inspections.
- **Fleet Managers App** Manage your assets via the app.
- **Tracking Device Warranty**
- **Live Asset Historic Reporting** Live and historical asset reports

Benefits

- Easily manage all assets in one place, simplifying oversight and control.
- Boost operational efficiency with geofencing, replay/view history and map layers for better insights and control.
- Minimise losses and downtime with theft recovery, repair management and live asset reporting.
- Effortlessly manage assets through our web and app-based platform, with dedicated apps for fleet managers and check sheets.
- Experience robust support with tracking device warranty, online help center and responsive email and over the phone support.
- Theft Recovery insurance claims and avoid costly downtime and replacement delays.
